High Speed Handheld Fan H20 User manual Safety Instructions 1.This product must not be used by persons with physical, sensory or mental impairments, or by those lacking experience and knowledge (including children), unless they are supervised or instructed by a person responsible for their safety in relation to the use of this product. 2.Children shall be supervised when this product is in use to ensure they do not play with it. 3.Charge only with power banks or PC USB ports max. 15W output (DC 5.0V/2.0A), for normal & abnormal operation. 4.This product shall be powered only by the safety extra-low voltage (SELV) marked on the unit. 5.This product contains batteries that can only be replaced by a qualified technician. 6.Electronic version of this product manual is available for official download at: https://www.greatarmo.com Product Specifications <table><tr><td>Product Name</td><td>High Speed Handheld Fan</td></tr><tr><td>Model</td><td>H20</td></tr><tr><td>Charging Input</td><td>5V~2A</td></tr><tr><td>Battery Voltage</td><td>3.7V</td></tr><tr><td>Product Size</td><td>183.5*57.5*62.2mm</td></tr><tr><td>Compliance Standard</td><td>GB/T 4706.1-2024 ,GB/T 4706.27-2024</td></tr></table> Read this manual carefully before use and keep it for future reference.	Product Name	High Speed Handheld Fan	Model	H20	Charging Input	5V~2A	Battery Voltage	3.7V	Product Size	183.5*57.5*62.2mm	Compliance Standard	GB/T 4706.1-2024 ,GB/T 4706.27-2024	Product Structure  Instructions for Use This product has two versions in total: A Standard Edition , B Refrigerated version % Battery Percentage ❄ Ice Pack Mode Indicator ☐ Standard Edition 1:Press the + button to turn on the fan. After starting, the fan speed level will be displayed, with the default speed set to level 1. Continue pressing the + button to increase the fan speed. The default levels are: 1-50-100-150-199-OFF. After the fan is started, holding down the button can increase the speed step by step, and holding down the - button can decrease the speed step by step. Pressing the- button will decrease the speed level step by step, with the default sequence: 199-150-100-50-1-OFF, cycling in order. 2: When the battery level is below 10%, the display will flash to alert you. Please charge promptly. 3: Charging: After plugging in the charging cable, the unit digit of the battery percentage will flash, showing the real-time battery level. Once fully charged, the display will show 100%. ☐ Refrigerated version 1: Press the + button to turn on the fan. After starting, the fan speed is set to level1 by default, with a total of 199 speed levels. Press the + button to increase the fan speed. The default speed sequence is: 1-50-100-150-199-OFF, cycling through. Long press to increase the speed level by level. 2: After the fan is on, press the❄button to toggle the ice compress mode. The ice mode indicator light will turn on during operation. Press again to adjust the ice mode levels: C1-C2-C3-OFF, cycling through. The ice mode can not be used independently. 3: When the battery level is below 10%, the display will flash to remind you to recharge in time. 4: Charging: After connecting the charging cable, the single-digit battery percentage on the display will flash, showing the real-timebattery level. When fully charged, the display shows 100%. 5: The ice compress mode cannot be activated while charging. Product Accessories  Gift Box x1  User Manual x1  USB Cable x1  Lanyard x1  Product x1 Warnings ◆This product has a built-in sealed battery. Do not disassemble it by yourself. ◆Do not use in humid environments (e.g., bathrooms). Exposure to water may cause malfunction or damage. ◆Avoid impacts or dropping the product. Repeated shocks may damage internal components. ◆Do not disassemble, modify, or repair the product yourself. ◆Do not expose to fire or high heat to prevent explosion risks. ◆If abnormal overheating or deformation occurs during charging, stop use immediately and contact customer service. ◆Do not allow children under 7 years old to use this product unsupervised. 技术要求

- 1.印刷必须清晰不得有断线、模糊不清等不良现象；
- 2.背胶必须耐温80摄氏度且不会翘起；
- 3.标签必须符合“SPI环境管制物质技术标准（SGP-0401）”最新版。
- 4.公差为±0.1mm。

温馨提示: 请印刷供应商严格按照我司设计图纸印刷生产。如贵司有生产上的原因需要调整图纸的字体、图形、颜色、刀模尺寸、材质工艺等, 请务必通知我司相关负责的包装设计师, 并在征得包装设计师同意的情况下修改文档并发回存档。
